Truck Pack Rev D

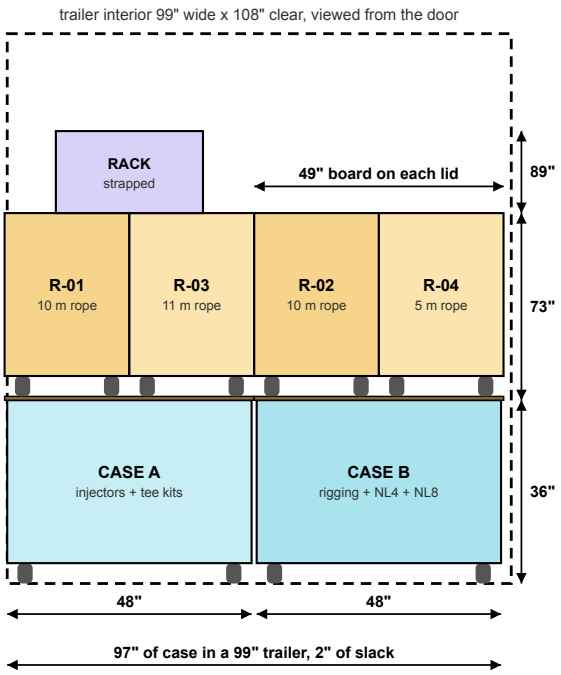
Spec #: KG3-BEA-PACK-01 Rev D **Job:** Beabadoobee 2026 Headline Tour **Date:** Sep 1 2026

TRAILER FLOOR	WIDTH	MAX HEIGHT	PIECES	EST. GROSS
2.5 ft	**97"**	**89"**	**7**	**~1,814 lb**
30.5" ACTUAL	OF CASE, 99" INTERIOR	OF 108" CLEAR	6 PROX + 1 SKB + 2 BOARDS	ESTIMATE

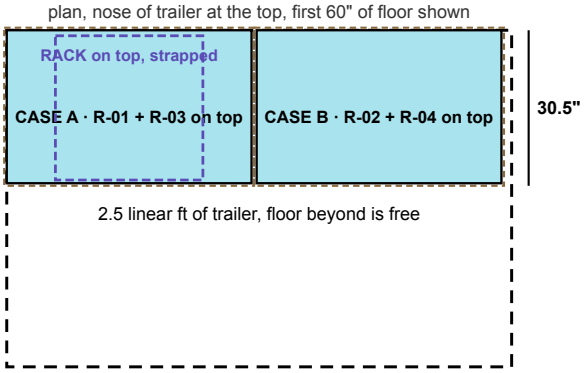
Pieces

PIECE	CASE	EXT W X D X H IN	EMPTY LB	GROSS LB	POSITION	CONTENTS
R-01	ProX XS-UTL243036W MK2	24.5 x 30.5 x 36	115	~200	Stack 1 top, over CASE A	LED rope 10 m: 9 pieces (8 show + 1 spare). DS1, DS2, DS3, AUD1-1, AUD2-1
R-02	ProX XS-UTL243036W MK2	24.5 x 30.5 x 36	115	~195	Stack 2 top, over CASE B	LED rope 10 m: 8 pieces (6 show + 2 spare). US4, US5, US6
R-03	ProX XS-UTL243036W MK2	24.5 x 30.5 x 36	115	~190	Stack 1 top, over CASE A	LED rope 11 m: 7 pieces (4 show + 3 spare). AUD1-2, AUD1-3, AUD2-2, AUD2-3
R-04	ProX XS-UTL243036W MK2	24.5 x 30.5 x 36	115	~160	Stack 2 top, over CASE B	LED rope 5 m: 9 pieces (6 show + 3 spare). USR1-1/2/3, USR2-1/2/3
CASE B	ProX XS-UTL483036W MK2	48 x 30 x 36	183	~560	Stack 2 floor	Rigging rings + safeties, NL4 stock, NL8 Pixel Data + Power Cables, splitters, barrels
CASE A	ProX XS-UTL483036W MK2	48 x 30 x 36	183	~440	Stack 1 floor	10 PWR-NJCT injectors (7 + 3 spare), 7 injection tee kits, spare controller
RACK	SKB 3SKB-R04U20W 4U	28.9 x 28.3 x 16.1	41	~70	Stack 1 top, strapped on R-01 + R-03	Pylon controller rack: 4 controllers, 2 power supplies, TRUE1 + etherCON in, NL8 + NL4 out
7 pieces, one flat wall, 2.5 linear ft			**867**	**~1,814**	**Gross weights are estimates.**	

Elevation, from the trailer door



Plan



Stacking. CASE A and CASE B on the floor, two rope trunks on each: R-01 and R-03 over CASE A, R-02 and R-04 over CASE B. Two trunks side by side are 49 in on a 48 in lid, so a 49 x 31 in plywood stacking board goes on each lid under the trunks and the trunks strap to the stack. Heavy on the floor, rope on top. The SKB rack rides on top of the CASE A stack, across the R-01 and R-03 lids, strapped: 89 in to the top of the rack.

Width. 97 in of case across a 99 in trailer: the two stacks ride touching, 2 in of total slack. Confirm the interior width. One row, 30.5 in deep, 2.5 linear ft.

Load order. Off first: RACK (decks at the pylon base), then R-01 and R-03 off CASE A (DS spans fly first), then CASE A (injectors and tee kits go up with the pickups). CASE B and its trunks come off last.

Truck Pack Rev D, contents

Spec #: KG3-BEA-PACK-01 Rev D **Job:** Beabadoobee 2026 Headline Tour **Date:** Sep 1 2026

LED rope, R-01 to R-04. 21 in donuts, one per layer, spares at the bottom of every trunk below a divider

TRUNK	STOCK LENGTH	PIECES, TOP TO BOTTOM	PIECES
R-01	10 m	DS1-1/1-2, DS2-1/2-2, DS3-1/3-2 on top (fly first), AUD1-1, AUD2-1 middle, 1 spare at the bottom below a divider	9
R-02	10 m	US4-1/4-2, US5-1/5-2, US6-1/6-2, 2 spare at the bottom	8
R-03	11 m	AUD1-2, AUD1-3, AUD2-2, AUD2-3, 3 spare at the bottom	7
R-04	5 m	USR1-1/1-2/1-3, USR2-1/2-2/2-3, 3 spare at the bottom	9
Rope total: 24 show pieces + 9 spare (3 per stock length), 187.8 m in the rig, 22 mm 360 pixel rope			**33**

CASE A	QTY
Layer 1, floor of case, 9 bays 8 x 14 in	
PWR-NJCT 1 to 7, flown 24 V injectors, each in its Apache 2800 case, cheeseborough on	7
PWR-NJCT spare, same build	2
Layer 2, 9 bays	
PWR-NJCT spare, same build	1
Injection tee kit, one bag per injector, labeled to the column (MSWR-NJCT1 ... DS1-NJCT7). Each bag: its Wyes, jumpers, straight and feeder per KG3-BEA-INJ-01	7 bags
Y-3 Wye, molded 12/3, NL4 on every leg (6 in service + 3 spare, spares in the NJCT7 bag)	9
Y-2 Wye, molded 12/3, NL4 on every leg (9 in service + 3 spare)	12
NL4 jumper 20 in, 12/3 (6 in service + 3 spare)	9
NL4 jumper 64 in and 104 in, 12/3, AP1 and AP2	1 + 1
Straight to the last run, 12/3, 5'1.25" / 4'11.25" / 13'0.25", plus 3 spare 6 ft	3 + 3
Feeder, PWR-NJCT to Wye 1, 12/3: 4 x 10 ft (winch columns), 41 ft, 45 ft, 43'10" (AP1 to AP3), plus 2 spare 10 ft	7 + 2
NL4 jumper 5 ft, 12/3, spare	4
Controller E, road spare for the rack (Advatek PixLite A4-S Mk3), boxed	1

CASE B	QTY
Lower deck, 2 bins	
18 in rated lighting safety cables, black	120
Upper deck, tray and dividers	
22 mm rope rigging rings, 5/8 in eye, eyebolts fitted (76 in service + 24 spare), labeled bin	100
NL8 Pixel Data + Power Cable, rack to group, ~60 ft (5 in service + 3 spare)	8
NL8 to 2x NL4 splitter (5 in service + 3 spare)	8
NL4 feeder 20 ft, black (rack singles to DS1, US4, USR1-1, USR2-1 and the gutter runs)	37
NL4 feeder 10 ft, black	8
NL4 cable 25 ft	8
NL4MMX coupler barrel, bagged (10 in service + 18 spare)	28

RACK	QTY
SKB 4U rolling shock rack, travels closed, strapped across the R-01 and R-03 lids on top of the CASE A stack	
Advatek PixLite A4-S Mk3 controllers A to D (E rides in CASE A)	4
Mean Well UHP-1500-24 power supplies on a vented shelf	2
Input plate: TRUE1 in, etherCON in. Output plate: NL8 + NL4 to the 5 groups	1

Not in this pack. TRUE1 power jumpers to the 7 PWR-NJCT boxes and the TRUE1 + etherCON feed to the rack are production supplied. Pin map and connector genders for every cable above are on KG3-BEA-INJ-01.
